The EcoGlaze Group Cotswold Collection of composite doors offer the highest level of protection from not only physical attacks but also the extremes the elements can bring.

Using only grade A components as standard the EcoGlaze Group Cotswold Collection of doors has been independently tested to meet all safety requirements including PAS24:2016 enhanced security and BS6375 classification for weather tightness and operational strength, air, wind and water. All doors are also compliant with document Q of the building regulations and Secured by Design can be added as a chargeable extra.

We have a choice of 19 door styles ranging from traditional to modern styles and all available in a palette of 30+ colours, enhanced with a choice of glazing designs and furniture - something to suit every home!
